ORP PROBES

SRH1-WP-DJ

Code: 9900105104

Main Features

- Low maintenance sealed unit
- Gel filled reference cell
- BNC connection with boot plastic cover
- Cable length 6m
- Platinum Electrode
- Pellon diaphragm accuracy

Field Application

- General laboratory
- drinking water
- swimming pools with salt water
- water monitoring and control plan

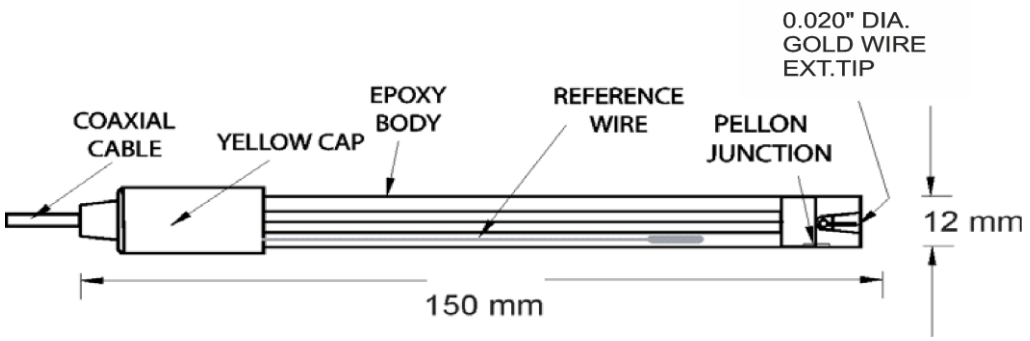

Further Features

- Range: ± 1.000 mV
- Temperature: 0..60 °C
- Pressure: 6 Bar
- Yellow plastic Body
- Measure electrode platinum body
- Reference measure electrod Ag/AgCl
- Double junction with KCL Gel and Pellon diaphram.
- YELLOW cup with 6 meter cable size 3mm, BNC plug included with yellow Boot cup.
- Batch production with 4 number to indicate Week and Year production
- Single Package with neutral carton box
- Neutral Label

TECHNICAL CHARACTERISTICS

ORP Range	± 1.000 mV
Temp. Range	60° C
Pressure Range	up to 6 bar
Body material	Polycarbonate
Diaphragm type	Pellon
Mechanical Mounting	Ø 12
Electrical Connection	6 m cable + BNC (yellow BOOT Cup)
Reference:	GEL
Offset	±12 mV
Storage temperature	+2 ÷50 °C (do not freeze)

DIMENSIONS

Technical data can be changed without notice.
